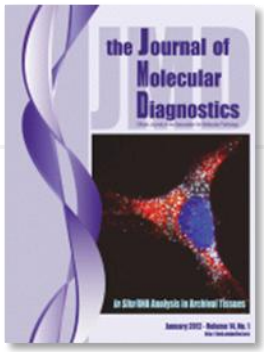
RNAscope®
Scientific Publications



In situ hybridization. Easy. Powerful.

Wang, F. et al. **RNAscope: A Novel In Situ RNA Analysis Platform for Formalin-Fixed Paraffin-Embedded Tissues.** • Journal of Molecular Diagnostics January, 2012 • 14(1)22-29. Dx.doi.org/10.1016/j.jmoldx.2011.08.002.

Kim, M.A. et al. **In situ analysis of HER2 mRNA in gastric carcinoma: comparison with fluorescence in situ hybridization, dual-color silver in situ hybridization, and immunohistochemistry.** Hum Pathol. 2012 Oct 16. pii: S0046-8177(12)00268-7. doi: 10.1016/j.humpath.2012.06.022. [Epub ahead of print] PMID: 23084583

Bishop, J.A. et al. **Detection of Transcriptionally Active High-risk HPV in Patients With Head and Neck Squamous Cell Carcinoma as Visualized by a Novel E6/E7 mRNA In Situ Hybridization Method.** Am J Surg Pathol. 2012 Oct 10. [Epub ahead of print] PMID: 23060353

Bordeaux, J.M. et al. **Quantitative in situ measurement of estrogen receptor mRNA predicts response to tamoxifen.** PLoS One. 2012;7(5):e36559. doi: 10.1371/journal.pone.0036559. Epub 2012 May 11. PMID: 22606272

Payne, R..E. et al. **Viable circulating tumour cell detection using multiplex RNA in situ hybridisation predicts progression-free survival in metastatic breast cancer patients.** • British J Cancer • 2012 Apr il • [Epub ahead of print]

Yan, K. S. et al. The intestinal stem cell markers Bmi1 and Lgr5 identify two functionally distinct populations. • PNAS • Jan, 2012 • 109 (2):466-471. www.pnas.org/cgi/doi/10.1073/pnas.1118857109

Lewis, J.S. et al. **Transcriptionally-Active High-Risk Human Papillomavirus is Rare in Oral Cavity and Laryngeal/Hypopharyngeal Squamous Cell Carcinomas – A Tissue Microarray Study Utilizing E6/E7 mRNA In-Situ Hybridization.** Histopathology • Feb, 2012

Tanas, M.R. et al. **Identification of a disease-defining gene fusion in epithelioid hemangioendothelioma.** Science Translational Medicine • Aug, 2011 • 3(98):98ra82. http://www.ncbi.nlm.nih.gov/pubmed/21885404

Ukpo, O.C. et al. **High-Risk Human Papillomavirus E6/E7 mRNA Detection by a Novel In Situ Hybridization Assay Strongly Correlates With p16 Expression and Patient Outcomes in Oropharyngeal Squamous Cell Carcinoma.** American J of Surgical Pathology • Sept, 2011 • 35(9):1343-50. http://www.ncbi.nlm.nih.gov/pubmed/21836494

Liu , X. et al. **Specific Regulation of NRG1 Isoform Expression by Neuronal Activity.** Journal of Neuroscience • June 8, 2011 • 31(23):8491– 8501. http://www.ncbi.nlm.nih.gov/pubmed/21653853

Masand, R.P. et al. **Adenosquamous Carcinoma of the Head and Neck: Relationship to Human Papillomavirus and Review of the Literature.** Head & Neck Pathology • June 2011 • 5(2):108-16. http://www.ncbi.nlm.nih.gov/pubmed/21305368
